APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed

6.4 cubic feet per second.

Actual construction work shall begin on or before June 25, 1921

Proof of commencement of work shall be filed before July 25, 1921

Work must be prosecuted with reasonable diligence and be completed on or before July 25, 1925

Proof of completion of work shall be filed before July 25, 1925

Application of water to beneficial use shall be made on or before

June 25, 1927. Proof of the application of water to beneficial

use must be filed with State Engineer on or before July 25, 1927

Proof of ~~filed~~ filed SEP 14 1921 WITNESS MY HAND AND SEAL this 25th day

of January 1921

Withdrawn by applicant Sep 14 1921

J.G.Scruggs State Engineer.

C. L. Seward State Engineer.

This permit is issued subject to all prior rights on the source. Water is not allowed under this permit for the following described land which has already been granted a water right under permit No. 5257 and certificate No. 500, Book 3, issued under permit No. 3682:-

SW $\frac{1}{4}$ Sec. 8 T. 29 N.R. 39 E.

N $\frac{1}{2}$ NW $\frac{1}{4}$ " " "

SE $\frac{1}{2}$ NE $\frac{1}{4}$ " 7 " "

E $\frac{1}{2}$ SE $\frac{1}{4}$ " 7 " "

This permit is issued in conjunction with permit No. 5960, a portion of the same land being proposed to be irrigated under both filings. The applicant will be required at the time of filing proof of beneficial use of water to definitely segregate the parcels of land which obtain water for irrigation purposes from each source described in these two permits, so that certificate can be issued properly describing the land to which the waters of each source are appurtenant.

It is assumed by the granting of this application that the water herein applied for is not percolating and therefore comes within the jurisdiction of the office of the State Engineer.

A substantial headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that applicant agrees to the terms herein contained.
